Search Committee
Department of Economics
St. Lawrence University
Canton, NY 13617
USA

Dear Members of the Search Committee,

I am writing to express my interest in the tenure-track Assistant Professor position in the Department of Economics at St. Lawrence University, beginning August 2026. I am a Ph.D. candidate in Economics at Johns Hopkins University, advised by Professors Christopher D. Carroll, Nicholas W. Papageorge, and Stelios Fourakis, and I expect to receive my degree in May 2026. My research fields are macroeconomics, wealth and income dynamics, and computational economics.

My research agenda focuses on understanding the determinants of wealth inequality and the mechanisms through which heterogeneity in returns to wealth shapes aggregate outcomes. In my job-market paper, I estimate the degree of heterogeneity in individual portfolio returns using micro-data from the Survey of Consumer Finances and simulate a structural model in which households face idiosyncratic return risk. I show that allowing for persistent heterogeneity in returns substantially improves the model's ability to match the empirical distribution of wealth, offering a tractable way to connect micro-level return dispersion to macroeconomic inequality.

In a second project, I use the Health and Retirement Study to examine the relationship between interpersonal trust and portfolio performance. Building on the literature that finds a hump-shaped relationship between trust and income, I show that a similar relationship holds for individual returns to wealth measured in the HRS data, highlighting a behavioral channel through which social attitudes shape saving and investment outcomes. This work also provides new estimates of the persistent component of returns to net worth, which motivate the calibration of heterogeneity in my structural model.

St. Lawrence University's Economics Department combines a strong liberal-arts mission with a commitment to high-quality scholarship. The department's broad search, its coverage of a wide range of fields, and its emphasis on excellence in teaching and research make it an exceptional fit for my interests and pedagogical approach. I am particularly drawn to the 3-3 teaching load with two preparations per semester, which allows for both strong student engagement and sustained research productivity. I am excited about contributing to the department's collaborative environment and mentoring students in classes, independent research, and interdisciplinary work.

Teaching. My teaching experience centers on undergraduate macroeconomics and an upper-level macro policy seminar, where I have led weekly discussion sections and held regular office hours for classes ranging from 16 to 40 students. My approach is student-centered: I aim to help students "convince themselves" that they have moved from confusion to understanding by holding structured

office-hour coaching that builds trust and confidence. At St. Lawrence, I am prepared to teach *Principles of Macroeconomics*, *Intermediate Macroeconomic Theory*, *Money and Banking*, and *Quantitative Methods for Economics*. I would also welcome developing electives such as *Economics of Inequality and Tax Policy* or *Computational Macroeconomics and Policy*, emphasizing reproducible workflows, transparent coding practices, and evidence-based decision-making.

I believe I would be a strong fit because my computational and empirical toolkit allows me to (i) produce rigorous, data-backed estimates of returns and distributional outcomes, (ii) build and validate quantitative models that speak to macroeconomic and policy-relevant questions, and (iii) mentor students effectively in a liberal-arts environment that values intellectual engagement and inclusive learning. I am enthusiastic about the opportunity to contribute to St. Lawrence University's teaching and research missions.

I would be honored to join the Department of Economics at St. Lawrence University. Thank you for your consideration; I welcome the opportunity to discuss my fit with your department at your convenience.

Sincerely,

Decory Edwards
